# Slot booking page

- User booking slot can choose suitable slot per product
  - Depending on Shipping point may require scrolling down
  - Slot indicating  Free are free for booking
  - If no suitable slot, contact EBS TM

The screenshot displays two booking interfaces for Salpeterzuur/Nitric Acid (HNO3). The top interface is for 53% - 60% concentration, and the bottom is for 65% - 68% concentration. Both interfaces show a grid of booking slots with columns for time intervals (00:00, 06:00, 10:00, 14:00, 18:00, 22:00) and rows for different (Un)loading points. The 53% - 60% interface shows a grid with some slots marked as booked (indicated by 'x') and others as free (indicated by a checked checkbox). The 65% - 68% interface shows a grid where all slots are currently free. Below the grids, there are summary statistics for 'Max In Total' and 'Currently Booked' for each time interval.

Group 1 (Group1) - Salpeterzuur/Nitric Acid ( HNO3 ) 53% - 60%		Salpeterzuur/Nitric Acid ( HNO3 ) 53% - 60%
